We know we keep telling you about our commitment to socially & environmentally responsible fundraising -- but we can't help it! It's who we are, what we do, and what we are committed to.

Each year we search for products that not only provide great fundraising opportunities, but that also support our commitment to social & environmental responsibility.

That's why we're excited to introduce a new product this coming fall -- an environmentally safe, all purpose fertilizer, made from liquefied worm poop (nature's premiere fertilizer), that comes in a bottle made from non-recyclable waste packaging.

The company that makes this great product is TerraCycle, and they work with companies like Kraft and Delmonte to take non-recyclable waste packaging and turn it into cool products. TerraCycle also supports national Collection Brigades that allow you to earn cash for your trash! TerraCycle takes the collected trash, pays redemption fees to schools and non-profit organizations, and turns the trash into cool products!

We're excited to introduce TerraCycle's plant fertilizer this fall and look forward to working with them further to support environmental fundraising!

As the school year winds to a close, there's still time to take advantage of early booking incentives for your fall 2010 fundraising campaign.

On behalf of Fundtastic Fundraising, I send you best wishes for a wonderful summer holiday season, and look forward to working with you again in September!

WHAT IS TERRACYCLE?

TerraCycle makes affordable, eco-friendly products from a wide range of different non-recyclable waste materials. With over 50 products available at major retailers, TerraCycle is one of the fastest growing eco-friendly manufacturers in the world. Their hope is to eliminate the idea of waste by finding innovative, unique uses for materials others deem garbage. Fundtastic will also be carrying TerraCycle products as part of our fundraising program starting this fall, so watch for further information!

Founded in 2001 by a 19-year old Princeton University freshman named Tom Szaky, TerraCycle started as an organic fertilizer company and has grown into a multi-category, eco-friendly powerhouse. Tom's dream was to find way a new, more responsible way of doing business that would be good for the planet, good for people and good for the bottom line!

NATIONAL COLLECTION BRIGADES ENGAGE COMMUNITIES

TerraCycle runs free national collection programs that pay schools and non-profits nationwide to collect used packaging! The collected materials are **upcycled** into affordable, high quality products ranging from tote bags and purses to shower curtains and kites. In addition, TerraCycle works with these partners to find innovative uses for all of their waste streams and, by making products from these various waste streams, TerraCycle prevents 1000's of tons of waste from going to landfills.

FUNDTASTIC FUNDRAISING WILL ADD THEIR SUPPORT TO TERRACYCLE COLLECTION BRIGADES THIS FALL!

Find out how you can be a part of an eco-revolution **this fall** by signing up for a FREE Collection Brigade or by purchasing TerraCycle products from Fundtastic as part of your 2010/11 fundraising campaign. More details coming this fall!
